EXPERIENCE

Tax Intern - Transfer Pricing (TP)

January 2024-August 2024

Indeed | Dublin, Ireland

Global Tax role, specialising in TP. I was intimately involved in all aspects of the team's processes, determining and ensuring compliance with intercompany policies at global level in Dublin, Ireland.

- Conducted comprehensive Statutory Financial Statements checks for all non-US entities, ensuring compliance with TP regulations to mitigate risk of double taxation and in potential future audits.
- Spearheaded an automation initiative to streamline fee processing, significantly reducing time, and implemented the solution across the entire tax organization for enhanced efficiency.
- Collaborated with company leadership to conduct functional interviews, gathering critical insights & feedback to inform strategic tax planning, documentation, and a proposed APA.
- Assisted in the preparation and creation of Transfer Pricing Local file documentation
- Analyzed of Sales and R&D expenditures for implementation in a RPSM project

Project Coordinator

May 2023-August 2023

Rice Group | Markham, ON, Canada

- Created real estate pro formas for low to mid-sized deals using MS Excel
- Valuated potential commercial real estate acquisitions & Strategized tenants for shopping centres
- Analyzed a variety of construction reports and provided recommendations to problems
- Monitored market trends and risk factors to refine investment strategies and support data-driven decision-making

Verification Officer

BVD Capital | Brampton, ON, Canada

May 2022-August-2022

- Verified paperwork to assess risk for invoice factoring loans, asset-based-lending- and price order financing, in one of Canada's largest factoring companies
- Verified invoices under tight deadlines within a team to reduce risk by 98% when funding upwards of 10 million dollars daily clients across North America
- Streamlined the take-on process for new clients by creating modern welcome packages
- Prepared financial data analytics for upper management using Excel and Power BI
